

## Smart choices for everyday healthcare

Karo Pharma offers a portfolio of everyday healthcare products and services that help prevent illness and treat health problems. With a wide range of trusted, documented, and original brands, backed by services for partners, customers, and consumers, we provide people with the options, knowledge, and access they need to stay healthy. We call it smart choices for everyday healthcare. We specialize in seven product categories: skin health, intimate health, digestive health, foot health, wellness, pain, cough and cold and specialty products such as Rx pharma care. Across these categories we own a range of differentiated brands in both prescription drugs (Rx) and consumer products (OTC).

Karo Pharma's products and services are present in over 60 countries with own subsidiaries in over 11 European countries. Karo Pharma has a revenue of SEK 2,9 bn in 2020, is headquartered in Stockholm and listed on NASDAQ First North Growth.

### ERP System Analyst

📍 Stockholm (Sweden)

We are strengthening our Digital & Master Data team with a new role as a system analyst. As the system analyst you will be joining the high performing Digital & Master Data team responsible of managing the Karo Group ERP ownership, Master Data governance and driving automation within global processes.

#### Roles & Responsibilities:

- Being the key source/person for knowledge in the ERP system for Karo
- Key contact person for external support team in Sri Lanka (IFS support team – Application Management Support team)
- Collecting improvement initiatives and mapping them to current solution (including feasibility study, cost/benefit assessment, impact assessment)
- Jira key user and coordinator

- Facilitate documentation of solution (Making sure we have sufficient documentation of solution, incl work instructions)
- Incident management together with ERP system supplier and system owner as well as super users
- Support the master data team in coordinating the ERP super user team
- Identify and implement improvements, automation, and process excellence
- Work closely with the master data team, including back up as required
- User access management

#### Projects:

- Participate various workstreams in the ERP Cloud implementation (learn the system and integrations, join and lead UAT, documentation etc)
- Support the ERP setup of E-commerce flows
- Lead work with integration platform or other way of integrating in best possible ways to other systems to and from the ERP
- Support other projects with touchpoint in the ERP
- Support the BI project with seamless processes / data from ERP to DW (together with master data team)

#### Qualifications and education:

- University degree in system science, finance or supply chain/logistics or similar
- English speaking and writing fluently (English are a requirement, other languages is a benefit)
- Technical skills in ERP- having documented knowledge in ERP system processes
- Experience from supporting users and providing training in ERP

We believe that you have 2-5 years of experience from working with in the ERP support area and that you are structured, collaborative and a self-leading professional. Meritorious if you have been working with global Shared Service Center, pharmaceutical industry and User access management.

#### We offer:

- Opportunity to create, grow, and encourage
- Apart from a competitive salary pack, there are lots of growth opportunities to meet your personal ambitions
- Flexible schedule and life work balance
- Responsibility for exciting and challenging projects that have a direct, visible impact on our customers and the industry
- Very positive work environment in a young, international, and motivated team

*Karo Pharma has a Diverse & Inclusive environment. We are looking for qualified candidates irrespective of gender, gender identity, sexual orientation, ethnicity, race, religion, national origin, disability or age.*
